Respondent.	)	

This matter is before the North Carolina Medical Board ("Board") regarding Andrew Epstein, D.O. ("Dr. Epstein"), license number 2022-02776.

FACTUAL FINDINGS

On January 4, 2024, the Board entered into a Consent Order with Dr. Epstein in which he was REPRIMANDED. Dr. Epstein was also restricted and prohibited from using his North Carolina medical license to prescribe the drug Ketamine or any other drug that may contain Ketamine and ordered to complete four (4) hours of continuing medical education ("CME") on medical record documentation within six (6) months of the date of the Consent Order.

On September 12, 2024, Dr. Epstein, through his legal counsel, requested that the Board relieve him of the restriction in his Consent Order prohibiting his prescribing Ketamine.

The Board recognizes that Dr. Epstein has complied in all respects with this condition of his Consent Order.

ORDER

The Board hereby orders that Dr. Epstein be relieved of the condition of his Consent Order that restricts prescribing Ketamine or drugs containing Ketamine.

All other terms and conditions of the Consent Order remain in effect. Nothing herein shall affect the public nature of Dr. Epstein's Consent Order, and it shall remain a public document on the Board's website.

This the 2nd day of December, 2024.
